## Profile

A highly motivated web developer with 1.5 years of experience working at Mansion, specializing in Golang, JavaScript, TypeScript and PHP. Proven ability to develop web pages and implement micro-services to track user traffic. Seeking opportunities to contribute my expertise to innovative web development projects.

## Professional Experience

### 2022–Present Web Developer | Mansion

- Collaborated with a dynamic team to create and maintain web pages, utilizing PHP, JavaScript, and TypeScript.
- Developed and optimized web pages to enhance user experience and improve site performance.
- Implemented responsive design principles to ensure seamless functionality across various devices and browsers.
- Worked on tracking and analytics solutions to monitor user traffic, employing micro-services built with Golang.
- Collaborated with cross-functional teams to gather project requirements, conduct code reviews, and troubleshoot issues.
- Contributed to the development of RESTful APIs and integrated third-party services for enhanced functionality.
- Participated in the agile development process, including sprint planning, daily stand-ups, and retrospective meetings.
- Kept abreast of industry trends and emerging technologies to drive innovation within the team.

### 2021–2022 Internship – Full-Stack Developer | Podkrepi.bg

- Participated in a charitable project focused on professional development.
- Gained hands-on experience with modern web development technologies, including Next.js for frontend, NestJS for backend, Prisma ORM for database management, Keycloak for authentication, Yup and Formik for validation, Material-UI for styling.
- Collaborated with industry professionals to learn and apply best practices in the JavaScript ecosystem.
- Worked on real-world projects, applying knowledge acquired during the internship.
- Demonstrated the ability to adapt quickly to new technologies and contribute effectively to team projects.
